DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawahara (4,962,647). Kawahara discloses a defrosting operation use in a refrigeration heat pump type system and comprising: an internal heat exchanger/evaporator (19), an external heat exchanger/condenser (29), a compressor (17), a bypass pipe (31) connected to said compressor, a heat storage tank (39) for heat exchange with refrigerant and consisting of a fluid medium which can inherently be water or anti-freeze since they both will perform the same intended function.

Allowable Subject Matter

Claims 1-25 are allowed over the prior art of record.
